

## System And Method For Interactive Contests

### Abstract of the Disclosure

5 A system and method provide content review, distribution, ranking and access and automate creation and performance of contests among sets of content-based contestants. The system and method provide customizable interactive, ongoing, multi-level, multi-round contests with expert review of and filtered submission of content-based contestants. Among other advantages, providers may use the system and method to obtain expert and consumer review and ranking of their content.
